Response to Amendment

Notice of Non-Responsive Amendment, Bona Fide Attempt

Applicants' amendment filed on January 4, 2005 is non-responsive. Currently amended claims 1-15 are directed to an invention that is independent or distinct from the invention originally presented for the following reasons:

Inventions directed to the originally presented claims and the currently amended claims are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of the originally presented claims has separate utility such as a method and system which does not require a second database or the configuration data of a railroad locomotive as required in the currently amended claims. See MPEP § 806.05(d).

The amendment filed on January 4, 2005 amending the claims drawn to the originally presented invention is non-responsive (MPEP § 821.03). The currently amended claims are not readable on the originally presented invention because of the reasons given above.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, Applicants are given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
